

Surety International

Kidnap Threat Awareness & Prevention

The 1-day Surety International Kidnap Awareness/Prevention Course has been designed and developed to provide personnel operating in kidnap risk environments with key awareness and prevention techniques.

Course Design

A segment of Surety International's longer Hostile Environment Awareness Course, which is offered and conducted internationally, the Kidnap Awareness/Prevention Course is designed and developed by security experts with direct operational field experience.

Syllabus

This course will cover;

- Identification of the risks and regions of primary concern
- The threat and varying kidnap types
- Intelligence and risk management principles
- How perpetrators conduct such crimes
- Strategies for mitigating the risks
- The stages of an incident
- The elements of kidnap incident management
- Intelligence profiling and support
- Intervention advice
- Hostage management support
- Repatriation assistance

Intended Audience

The Surety International course will benefit personnel employed, operating or engaged in regions where kidnap is a tangible security risk, including:

- Country/Region Managers
- NGO Staff
- Aid Workers
- Expatriate Employees

Flexible Delivery

In addition to promulgated course locations and schedules, Surety International offers the flexibility to present the course at the client's preferred location. Surety International can conduct the course at a range of venues both international and domestic, private or government.
