

Surety International

Situation / Personal Security Awareness Workshop

The 1/2 day Surety International Situation / Personal Security Awareness Workshop has been designed and developed to provide personnel living or operating in unfamiliar and/or potentially high risk environments with key awareness techniques.

Course Design

A segment of Surety International's longer Hostile Environment Awareness Course, which is offered and conducted internationally, the Situation / Personal Security Awareness Workshop is designed and developed by security experts with direct operational field experience.

The aim of the workshop is to introduce basic security guidelines to assist participants in developing good security practices, thus increasing own personal security awareness.

Syllabus

This workshop will cover;

- Principles of personal security
- Principles of situational awareness
- Cultural appreciation considerations
- Environmental considerations
- Human behavioural aspects
- Response preparedness
- Countermeasures
- Strategies for mitigating the risks

Intended Audience

The Surety International course will benefit personnel employed, operating or engaged in regions where personal security is a concern, including:

- Country/Region Managers
- NGO Staff
- Aid Workers
- Expatriate Employees
- International Visitors such as tourists & students

Flexible Delivery

In addition to promulgated course locations and schedules, Surety International offers the flexibility to present the course at the client's preferred location. Surety International can conduct the course at a range of venues both international and domestic, private or government.
